ABSTRACT

Novita, Ayu. 2015. *The Use of Three Phase Reading Technique in Teaching Reading Comprehension (A Case Study of the Tenth Grade Students at SMA PGRI 2 Kayen Pati in Academic Year 2014/2015).* Skripsi. English Education Department, Teacher Training and Education Faculty, Muria Kudus University. Advisor: (i) Rismiyanto, SS, M.Pd, (ii) Atik Rokhayani, S.Pd, M.Pd.

**Key words:** Reading, Teaching Reading Comprehension, Teacher’s Technique

One of techniques which should be managed and applied by teachers in the classroom is a technique in teaching reading comprehension. One of very important reading purposes is to get meaning from a text. This means about the process how the reader decodes the message from the text. In getting the meaning from the text, the reader needs a comprehension technique. Based on the result of my observation in SMA PGRI 2 Kayen Pati, it shows that the students' mastery of reading is low, most of the students are still afraid and assumed that English is difficult to learn. The teachers who teach in SMA PGRI 2 Kayen Pati used three phase reading technique in teaching reading comprehension in the classroom. In three phase reading technique there are three stage: Pre-reading stage (activity before reading the text), while-reading stage (activity during reading text) and post-reading stage (activity after reading the text) and in every stage the teachers can input many activity.

The purpose of this research are described as follows: (i) to describe the implementation of three phase reading technique in teaching reading comprehension of the tenth grade students (X-1 and X-4) of SMA PGRI 2 Kayen Pati (ii) to find out the students perception with the implementation of three phase reading technique in teaching reading comprehension of the tenth grade students (X-1 and X-4) at SMA PGRI 2 Kayen Pati.

The research is a qualitative research design which is a case study using three data collection technique; classroom observation, interview and questionnaire. A case study is chosen because this study to observe the teachers technique on teaching reading comprehension and the students perception toward their technique used.

The result of this research is all of the teachers have used teaching reading technique to encourage the students in comprehend the text that formulated in pre-reading stage, while-reading stage and post-reading stage. The first teacher in pre-reading stage, while-reading stage used not relevant activities with the theory and in the post-reading stage the first teacher used relevant activities with theory. The first teacher also should know that three phase reading technique is a technique in teaching reading comprehension not speaking skill, so the students activities should like reading skill. Then the second teacher all of their activities was relevant with the theory but the second teacher activities in while-reading stage like a writing not reading but the result the students read the text in front of the class.

The students perception toward their teacher technique in teaching reading comprehension. As found in the result and analysis of the questionnaire, for the first in (X-1) the students gives checklist in column strongly agree 32,6 %, agree 58,3 %,
neither agree nor disagree 1.6 %, strongly disagree 1.3 % and disagree 6.0 %. The second in (X-4) the students gives checklist in column strongly agree 36.3 %, agree 43.0 %, neither agree nor disagree 11.6 %, strongly disagree 2.6 % and disagree 6.3 %. the result of the students perception toward the implementation of three phase reading technique in teaching reading comprehension in the classroom (X-4) get higher score in column strongly agree then (X-1). So, the students fell easily to understand about the material with the second teacher.

Therefore, the researcher suggests that for the English teachers of SMA PGRI 2 Kayen Pati, they can increase their knowledge related the implementation of three phase reading technique in teaching reading comprehension in the classroom. For the students of SMA PGRI 2 Kayen Pati, they can easy to understand when they learn English in the classroom especially in comprehend the text by using three phase reading technique.
ABSTRAK

Kata Kunci: Membaca, Pengajaran pemahaman bacaan, Teknik guru

Tujuan dari penelitian untuk menjabarkan; (i) menjabarkan penggunaan teknik three phase reading dalam pengajaran pemahaman membaca dikelas sepuluh SMA PGRI 2 Kayen Pati. (ii) menjabarkan presepsi siswa tentang penggunaan teknik three phase reading dalam pengajaran pemahaman membaca dikelas sepuluh SMA PGRI 2 Kayen Pati.

Penelitian ini adalah kualitative, menggunakan tiga cara pengumpulan data; observasi kelas, wawancara dan pemberian soal. Studi kasus dipilih karena untuk mengobservasi teknik guru dalam pengajar pemahaman membaca dan presepsi siswa terhadap penggunaan teknik tersebut.

Hasil dari penelitian ini adalah semua guru dalam mengajar pemahaman membaca menggunakan teknik three phase reading untuk meningkatkan pemahaman siswa dalam memahami bacaan yang dirumuskan dalam kegiatan sebelum membaca teks, kegiatan sedang membaca dan kegiatan setelah membaca teks. Guru pertama dikegiatan sebelum dan sedang membaca teks menggunakan kegiatan yang tidak sesuai dengan teori. Guru pertama harus memahami teknik three phase reading adalah sebuah teknik untuk mengajar pemahaman membaca tidak untuk kemampuan berbicara, harusnya kegiatan yang digunakan seperti kegiatan untuk pemahaman membaca. Sedangkan guru kedua semua kegiatannya menggunakan kegiatan yang sesuai dengan teori tapi guru kedua di kegiatan sedang membaca teks seperti kegiatan untuk kemampuan menulis tidak seperti kegiatan pemahaman membaca tapi hasilnya siswa membaca hasil diskusinya didepan kelas.
Presepsi siswa terhadap teknik guru dalam pengajaran pemahaman membaca. Dari hasil pemberian soal, yang pertama di kelas (X-1) siswa memberikan jawaban 32,6 % dikolom sangat setuju, dikolom setuju 58,3 %, dikolom tidak mempunyai jawaban 1,6%, dikolom sangat tidak setuju 1,3 %, dan dikolom tidak setuju 6,0 %. Guru kedua dikelas (X-4) siswa memberikan jawaban 36,3 % dikolom sangat setuju, dikolom setuju 43,0 %, dikolom tidak mempunyai jawaban 11,6 %, dikolom sangat tidak setuju 2,6 %, dan dikolom tidak setuju 6,3%. Hasil presepsi siswa terhadap penggunaan three phase reading teknik dalam pengajaran pemahaman membaca dikelas (X-4) mendapat nilai tertinggi di kolom sangat setuju dibanding dengan (X-1). Jadi, siswa merasa mudah untuk memahami sebuah materi yang diajarkan oleh guru kedua.

Oleh karena itu, penulis memberikan saran kepada guru yang mengajar bahasa Inggris di SMA PGRI 2 Kayen Pati, mereka dapat menggembangkan pengetahuan terhadap penggunaan teknik three phase reading dalam pengajaran pemahaman membaca dikelas. Untuk siswa SMA PGRI 2 Kayen Pati, mereka mudah untuk memahami ketika belajar bahasa Inggris dikelas terutama dalam pemahaman membaca menggunakan teknik three phase reading.
