MOTTO AND DEDICATION

Motto:

- ❖ Live is a struggle, so don't give up in reaching your dreams.
- ❖ Set your mind and your heart with the word "I can", so you can overcome all the problems you had.

ACKNOWLEDGEMENT

Thanks to Allah for blessing, mercy and compassionate given to the writer, so she finished her research entitle “The Speaking Ability of the Eleventh Grade Students of MAN 1 Kudus in Academic Year 2011/2012 Taught by Using Community Language Learning (CLL) Method”.

The writer realizes, she would not be able complete her skripsi without support, advice and guidance from many persons. Therefore, she would like to express her sincerest gratitude to:

1. Drs. Susilo Rahardjo, M.Pd as the dean of Teacher Training and Education Faculty
2. Fitri Budi Suryani, SS, M.Pd as the head of English Education Department
3. Titis Sulistyowati, SS, M.Pd as the first advisor, for all her invaluable time and patience in guiding the writer during the process of writing.
4. Rismiyanto, SS, M.Pd as the second advisor, for all his patience and thorough in examining this final project.
5. All of the lecturers and staff of English Education Department Education Faculty of Teacher Training and Education University of Muria Kudus who have gave their contribution to the writer for completing this research.
6. Dra. Zulaikhah MT, M.PdI as the headmaster of MAN 1 Kudus for her permission and helps.
7. Siti Nasriyah, S.Pd as the English teacher of the eleventh grade for her advice and helps.

8. All the students in XI S2 class for the joy and help that always full of spirit during the process of research.
9. Her beloved parents (Mr. Agus and Mrs. Anis) and all her family who always care with her, pray for her and give her support.
10. All of her friends in University of Muria Kudus especially “EED 2008” and her friends in the boarding house “ Wisma Asri” , who cannot mentioned one by one.
11. All people involved during the writing of this final project.

The writer happily receives any constructive criticism and suggestion, but the writer hopes that it will be useful for those especially who are in the field of education. Thank you.

Kudus, 13 June 2012

Husnia Tsalisa Agnisa

ABSTRACT

Agnisa, Husnia Tsalisa. 2012. *The Speaking Ability of the Eleventh Grade Students of MAN 1 Kudus in Academic Year 2011/2012 Taught by Using Community Language Learning (CLL) Method.* Skripsi. English Education Department Teacher Training and Education Faculty Muria Kudus University. Advisor Lecturer: (I) Titis Sulistyowati, SS, M.Pd. (II) Rismiyanto, S.S, M.Pd

Key Words: Speaking Ability and Community Language Learning (CLL) Method

Speaking is one of the English skills. It is expected that teachers teach speaking for the students in senior high school and they will get significant result of their teaching. In the other side, according to the writer's experience during teaching practice in MAN 1 Kudus, the writer got information that the speaking ability of the students is still low. It can be seen from the students' scores is lower than the minimal score (70) given by their teachers. To make the students can understand about speaking skill, the teachers use an appropriate method. One of the methods is Community Language Learning (CLL). Community Language Learning (CLL) as the method of teaching used by the writer.

The objective of this research is to find out whether there is a significant difference between the speaking skill of the eleventh grade students of MAN 1 Kudus in the academic year 2011/2012 before and after being taught by using Community Language Learning (CLL) method.

The writer uses quantitative experimental research to find out the answer from the statement of the problem. The writer has a plan to use CLL method in her research. The method is used to solve the problem speaking skill. Her research is using pre-test and post-test. The population is the eleventh grade students of MAN 1 Kudus in the academic year 2011/2012. The writer uses cluster random sampling to get the sample. The writer got class X1 S2 as experiment. The numbers of sample are 40 students. The writer used a test as instrument of the research. The test is oral test.

The speaking skill of the eleventh grade students of MAN 1 Kudus in academic year 2011/2012 before being taught by using Community Language Learning (CLL) method is *fair*. It based on the score criteria of speaking ability. It showed from the result of the test that mean is **53.00** and standard deviation is **5.60**. Meanwhile, the speaking skill of the eleventh grade students of MAN 1 Kudus in academic year 2011/2012 after being taught by using Community Language Learning (CLL) method is *good*. It is showed from the result of the test in which the mean is **70.05** and standard deviation is **8.52**. It is easy to understand from the mean score of pre-test and post-test that there is significant different. The mean of post-test is higher than the mean of pre-test. But, we have to examine the result of the scores by using t-test and t-table. Then, the result is t-test ($t_o = 17.81$) $>$ t-table ($t_t = 2.021$). So, there is a significant different between the speaking skill before and after being taught by using Community Language Learning (CLL) method.

After doing the research, the writer would like to give several suggestions; (1) The English teachers could use Community Language Learning (CLL) as method to teach speaking because this method is assume to improve the student's speaking skill, (2) The students should increase their habit to speak English, because of the habit of speaking they can easily communicate with other in English and (3) The next researchers can use Community Language Learning (CLL) method not only in speaking but also in listening, reading, and writing. Then, they also can develop this research deeper than the writer.

ABSTRAKSI

Agnisa, Husnia Tsalisa. 2012. *Kemampuan Berbicara Siswa Kelas XI MAN 1 Kudus Tahun Ajaran 2011/2012 Diajarkan oleh Menggunakan Metode Komunitas Bahasa Learning (CLL)*. Skripsi. Progdi Pendidikan Bahasa Inggris Fakultas Pendidikan Keguruan dan Pendidikan Universitas Muria Kudus. Dosen Pembimbing: (I) Titis Sulistyowati, SS, M.Pd. (II) Rismiyanto, S.S, M.Pd.

Kata Kunci: Kemampuan Berbicara dan Metode Komunitas Belajar Bahasa (CLL)

Berbicara adalah salah satu kemampuan bahasa Inggris. Diharapkan guru mengajar berbicara untuk siswa di sekolah menengah atas dan mereka akan mendapatkan hasil yang signifikan dari pengajaran mereka. Di sisi lain, menurut pengalaman penulis selama praktek mengajar di MAN 1 Kudus, penulis mendapat informasi bahwa kemampuan berbahasa siswa masih rendah. Hal ini dapat dilihat dari nilai siswa lebih rendah dari nilai minimal (70) yang diberikan oleh guru mereka. Untuk membuat siswa dapat memahami tentang keterampilan berbicara, para guru menggunakan metode yang tepat. Salah satu metode adalah Community Language Learning (CLL). Komunitas Belajar Bahasa (CLL) sebagai metode pengajaran yang digunakan oleh penulis.

Tujuan dari penelitian ini adalah untuk mengetahui apakah ada perbedaan signifikan antara keterampilan berbahasa siswa kelas XI MAN 1 Kudus pada tahun akademik 2011/2012 sebelum dan sesudah diajarkan dengan menggunakan Bahasa Community Learning (CLL) method.

Penulis menggunakan penelitian eksperimental kuantitatif untuk mengetahui jawaban dari pernyataan dari masalah. Penulis memiliki rencana dari proses itu sendiri dalam penelitian. Rencananya adalah tentang sumber untuk mendapatkan data dalam usahanya untuk menemukan solusi untuk masalah. Sumber adalah studi kepustakaan yang mengacu pada aktivitas menggunakan perpustakaan dan riset lapangan tersebut yang mengacu pada aktivitas untuk mendapatkan data empiris, dengan menggunakan pre-test dan post-test. Populasi adalah siswa kelas XI MAN 1 Kudus pada tahun akademik 2011/2012. Penulis menggunakan cluster random sampling untuk mendapatkan sampel. Penulis mendapat X1 kelas S2 sebagai percobaan. Jumlah sampel adalah 40 siswa. Penulis menggunakan tes sebagai instrumen penelitian. Tes ini adalah tes lisan.

Keterampilan berbahasa siswa kelas XI MAN 1 Kudus pada tahun akademik 2011/2012 sebelum diajarkan dengan menggunakan Komunitas Belajar Bahasa (CLL) metode adalah adil. Hal ini menunjukkan dari hasil tes yang maksud adalah 53,00 dan deviasi standar 5,60. Sementara itu, keterampilan berbahasa siswa kelas XI MAN 1 Kudus pada tahun akademik 2011/2012 setelah diajarkan dengan menggunakan Bahasa Community Learning (CLL) metode yang baik. Hal ini menunjukkan dari hasil tes di mana rata-ratanya adalah 70,05 dan deviasi standar 8,52. Sangat mudah untuk memahami dari skor rata-rata pre-test dan post-test yang ada perbedaan yang signifikan. Rerata post-test lebih tinggi dari rata-rata pre-test. Tapi, kita harus memeriksa hasil nilai dengan menggunakan

t-test dan t-tabel. Kemudian, hasilnya adalah t-test (untuk = 17,81) > t-tabel (tt = 2.021). Jadi, ada perbedaan signifikan antara keterampilan berbahasa siswa kelas XI MAN 1 Kudus pada tahun akademik 2011/2012 sebelum dan sesudah diajarkan dengan menggunakan Bahasa Community Learning (CLL) method

Setelah melakukan penelitian, penulis ingin memberikan beberapa saran: (1) Para guru Bahasa Inggris bisa menggunakan Community Language Learning (CLL) sebagai metode untuk mengajar berbicara karena metode ini berasumsi untuk meningkatkan keterampilan siswa berbicara, (2) The siswa harus meningkatkan kebiasaan mereka berbicara bahasa Inggris, karena kebiasaan berbicara mereka dapat dengan mudah berkomunikasi dengan lainnya dalam bahasa Inggris dan (3) Para peneliti berikutnya dapat menggunakan Community Language Learning (CLL) metode tidak hanya dalam berbicara tetapi juga dalam mendengarkan, membaca, dan menulis. Kemudian, mereka juga dapat mengembangkan penelitian ini lebih dalam dari penulis.
