Dedication:

This skripsi is dedicated to:

- ❖ *My parents, my siblings, my big family, my best friends, and my lecturers*
- ❖ *Those who appreciate knowledge and education*
- ❖ *Those whom I love and who love me*

ACKNOWLEDGEMENT

Alhamdulillah, glory to Allah SWT the Almighty, the Lord of Universe that blesses me with health and tremendous power in accomplishing the skripsi entitled “The Analysis of the Translation Text Accuracy Issued in the Physics Bilingual Text Book for the Seventh Grade of Junior High School”.

However, the completion of this skripsi could not be achieved without assistance of others. In this opportunity, I would like to express my gratitude to:

1. Allah SWT the Almighty.
2. My beloved Parents who give me love, pray, and support.
3. Drs. Susilo Raharjo, M.Pd, the Dean of Teacher Training and Education Faculty.
4. Drs. Muh. Syafei M. Pd, the first advisor who already gives me valuable input in writing this skripsi.
5. Fitri Budi Suryani, SS, M.Pd, the Head of English Education Department of Teacher Training and Education Faculty and as the second advisor who already gives suggestion in writing this skripsi.
6. Members of Mapasi, Budi Ariyanto as Head of Mapasi and M, Chusnan as Secretary of Mapasi who always support and motivate me.
7. Someone I called “Ninok” who give me care, support, motivation, advises, spirit and inspiration.
8. My friends in UKM Jurnalistik, Pena Kampus Magazine.

9. All my friends and lecturers in Teacher Training and Education Faculty UMK.

10. All of the lecturers who taught me during studying at the Faculty.

11. Those who already help me to finish this skripsi.

In addition, I would like to express my sincerest gratitude to the readers for some critics and suggestion. I hope this skripsi will be useful for everyone who concern to the topic.

ABSTRACT

Sulistiyanto, Agus, 2012. The Analysis of the Translation Text Accuracy Issued In The Physics Bilingual Text Book For The Seventh Grade Of Junior High School. English Education Department Teacher Training and Education Faculty Muria Kudus University. Advisors (1) Drs. Muh. Syafei, M.Pd. (2) Fitri Budi Suryani, SS. M.Pd.

Education is an important thing for human life. People everywhere in the world must be looking for the best quality education to increase their welfare, to get a job and also to be a human quality. In Indonesia, many school try to be international standard school the teaching technique in that school must be different from the ordinary school, because they have to use two curriculum implementation, those are national and international curriculums.

It means that the student should be taught with English and by using bilingual text book for the lesson. Using the bilingual text book, the teacher should understand two languages, the Indonesian version that translated into good English version. The structure and the meaning of the target language must be understood as the source language. This process is called translation.

Translation is difficult activity, many problem are related in translation such as problem with the text, language problem and problem related to cultural aspect. Based on the reason above, the writer is interested to identify and describe the accuracy of translation text of translation txt issued in bilingual text book especially in Physics, since the book are uses as the teaching media especially in international standard school.

The objective of the research is to find out the accuracy of the translation text issued in Physics bilingual text book for seventh grade of junior high school published by Yudhistira.

This research is descriptive qualitative research. The data and data source of this research is the Indonesian text and English text in Physics bilingual text book. The researcher takes three chapters of five chapters in the book. The writer makes a checklist based on criteria of excellent, very good, good, fair and bad translation. Thus, the writer is able to see the description of the translation text accuracy of the book. The result of this research is the accuracy of the translation text of the physics bilingual text book for the seventh grade of junior high school published by Yudhisthira is excellent 78,4 percent.

Thus, the writer suggests for physics teacher, they have to pay attention in this bilingual text book because there are some inaccuracies in translating process. For the student, especially for seventh grade student that use this book for learning, they should be more careful in finding the meaning in this book. For the publisher, they should increase the translation text accuracy because this learning media, so the book should get the best criteria.

ABSTRAKSI

Sulistiyanto, Agus, 2012. The Analysis of The Translation Text Accuracy Issued In The Physics Bilingual Text Book For The Seventh Grade Of Junior High School. English Education Department Teacher Training and Education Faculty Muria Kudus University. Advisors (1) Drs. Muh. Syafei, M.Pd. (2) Fitri Budi Suryani, SS. M.Pd.

Pendidikan merupakan suatu hal yang penting dalam kehidupan manusia. Setiap orang didunia ini pasti mengharapkan pendidikan yang berkualitas untuk mmeningkatkan kesejahteraan, dan mendapatkan pekerjaan yang layak serta mendapatkan pendidikan untuk menjadi manusia yang berkualitas. Di Indonesia, banyak rintisan sekolah bertaraf internasional berdiri, teknik pengajaran disekolah tersebut berbeda dengan sekolah pada umumnya.

Hal ini karena mereka menggunakan dua kurikulum, kurikulum berbasis nasional dan internasional. Sehingga siswa harus diajar dengan menggunakan Bahasa Inggris dan menggunakan buku dwi bahasa (Bilingual). Dalam pemakaian buku bilingual, guru harus mampu memahami dua bahasa, yakni Bahasa Indonesia yang diterjemahkan kepada Bahasa Inggris. Struktur bahasa sumber harus dapat dipahami seperti bahasa targetnya, proses ini disebut penerjemahan.

Seperti masalah teks, masalah kebahasaan, serta masalah yang berhubungan dengan bahasa itu sendiri. Berdasarkan alat tersebut, penulis merasa tertarik untuk mengidentifikasi serta menggambarkan keakuratan dari buku fisika dua bahasa karena buku ini digunakan sebagai media pembelajaran.

Tujuan penelitian ini adalah untuk menemukan keakuratan dari teks penerjemahan buku fisika dua bahasa yang digunakan siswa kelas tujuh SMP yang diterbitkan oleh Yudhistira.

Penelitian ini merupakan jenis penelitian deskriptif kualitatif. Data serta sumber data penelitian ini merupakan teks dalam versi Bahasa Indoensia dan Bahasa Inggris dalam tiga bab dari lima bab yang ada dalam buku fisika dua bahasa. Penulis membuat daftar dan kriteria: istimewa, sangat baik, baik, cukup dan buruk. Berdasarkan criteria tersebut penulis dapat menggambarkan kualitas terjemahan buku fisika dua bahasa. Hasil penelitian ini, kualitas buku fisika dua bahasa adalah istimewa 78,4 percent.

Jadi, penulis menyarankan kepada guru fisika untuk lebih memperhatikan buku terjemahan ini karena ada kalimat yang kurang akurat dalam penerjemahannya. Bagi para siswa, khususnya yang di kelas tujuh SMP hendaknya lebih teliti dalam memaknainya. Sedangkan bagi penerbit, hendaknya bisa meningkatkan kualitas buku penerjemahan, karena buku ini merupakan media belajar sehingga kualitas penerjemahan mencapai criteria terbaik.
