ABSTRACT

Wulansari, Falasyifa Dwi. 2019. Error Analysis of The English Vowels Pronunciation Made By The First Semester Students of Primary School Teacher Education Department of Muria Kudus University.
Skripsi. English Education Department, Teacher Training and Education Faculty, Muria Kudus University Advisors: (1) Dr. Drs. Slamet Utomo, M.Pd, (2) Rusiana, S.Pd, M.Pd.

Key words: Error Analysis, English Vowels Pronunciation.

One of the important parts in speaking especially making conversation is pronunciation. Because with the correct pronunciation must be avoided from misunderstanding. To know the students pronunciation is correct or not, we need error analysis. Error analysis is of a procedure used that involves data collection, identification, description, classification, and evaluation. The objective of this research is to find out the errors of English vowels pronunciation made by the first semester students of Primary School Teacher Education Department of Faculty of Muria Kudus University.

This is descriptive qualitative research. The data of the research is English vowels pronunciation meanwhile this video the writer take it from youtube in speaking performance recording about self introduction topic of the First Semester Students of Primary School Teacher Education Department of Faculty of Muria Kudus as the data source of the research.

Based on the finding of this research, the students still need more attention, more practice for pronunciation, especially in vowel. There are 96 words in single vowel, then there are 47 words error in diphthong, and there are not find the error words in triphthong. The error pronunciation was dominated by single vowel. The common error pronunciation made by the students in single vowel is in vowels [æ], [ɪ] and in diphthongs is [aɪ], [eɪ].

From this research, the writer hopes the lecturer and the students pay attention more the pronunciation, especially vowel because it is the mostly used and it is a main core off the syllabel. And for the further researcher, the writer hopes that the next researcher can develop their study probably by conducting more detail study about this related topic but in other data source.

ABSTRAK

Wulansari, Falasyifa Dwi. 2019. *Analisis sebuah kesalahan dari pelafalan vowel bahasa inggris yang dibuat oleh Murid Semester Satu Program Studi Pendidikan Guru Sekolah Dasar Fakultas Keguruan dan Ilmu Pendidikan Universitas Muria Kudus Tahun Ajaran 2015/2016*. Skripsi. Program Studi Pendidikan Bahasa Inggris Fakultas Keguruan Ilmu Pendidikan Universitas Muria Kudus, Pembimbing: (1) Dr. Drs. Slamet Utomo, M.Pd, (2) Rusiana, S.Pd, M.Pd.

Kata kunci: *Analisis kesalahan, pelafalan vowel bahasa inggris.*

Salah satu bagian yang penting dalam berbicara khususnya membuat percakapan adalah pelafalan. Karena dengan pelafalan yang benar akan terhindar dari kesalahfahaman. Untuk tahu pelafalan murid benar atau tidak, kita butuh analisis kesalahan. Analisis kesalahan adalah sebuah cara yang meliputi pengumpulan data, identifikasi, penggambaran, pengelompokan, dan evaluasi. Tujuan dari penelitian ini adalah untuk menemukan kesalahan pelafalan berbicara yang di buat oleh murid semester satu program studi pendidikan guru sekolah dasar Universitas Muria Kudus.

Penelitian ini merupakan penelitian deskriptif. Data dari penelitian ini adalah pelafalan vowel bahasa inggris, sedangkan video ini diambil penulis dari youtube didalam video rekaman penampilan murid tentang topik pengenalan diri dari semester satu Program Studi Pendidikan Guru Sekolah Dasar Universitas Muria Kudus sebagai sumber data dari penelitian ini.

Berdasarkan penemuan dari penelitian ini, murid masih membutuhkan lebih banyak perhatian, lebih banyak praktek pelafalan, khususnya pada vowel. Ada 96 kesalahan kata di vowel tunggal. Kemudian ada 47 kesalahan kata di Diphthong , dan terakhir penulis tidak menemukan kesalahan kata di dalam triphthong. Kesalahan pelafalan di dominasi oleh vowel tunggal. Kesalahan yang sering di buat oleh murid adalah vowel tunggal yaitu di [æ], [ɪ] dan diphthongs di [aɪ], [eɪ].

Dari penelitian ini, saya berharap para pengajar, dan siswa lebih memperhatikan pelafalan, khususnya vowel karena ini yang paling sering digunakan dan vowel adalah sebuah inti terpenting dari sillabel. Dan untuk peneliti selanjutnya, saya berharap agar mereka mengembangkan penelitian ini dengan topik yang berhubungan tetapi berbeda dalam penggunaan sumber data.
