Syed Abdul Rehman Khan, Zeeshan Ahmad, Adnan Ahmed Sheikh, Zhang Yu

A rapid increase in traditional industries is creating social and environmental problems through extensive usage of natural resources and polluting the environment. A circular...

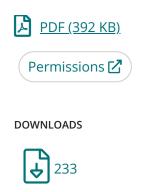

Stimulating innovation performance through knowledge-oriented leadership and knowledge sharing: the moderating role of market turbulence

Phong Ba Le, Yen Hai Do

Due to the vital role of innovation for firms to respond to the change and achieve competitive advantage, the purpose of this study is to investigate the influence of...

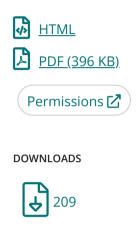

Examining the impact of top management support on employee creativity through the mediating role of knowledge management and absorptive capacity

Sawasn Al-Husseini

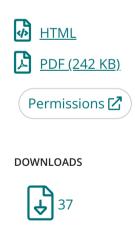

Drawing on the knowledge-based view and social exchange theory, this study aims to examine how top management support relates both directly and indirectly to employee creativity...

The identification and classification of contributing factors to technical knowledge valuation at the related commercialisation level using the hierarchical analysis

Mohammad Hossein Zolfaghar Arani, Mahmoud Lari Dashtbayaz, Mahdi Salehi

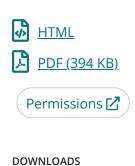

This study aims to determine the contributing factors to technical knowledge valuation at the related quadruple levels of commercialisation, including the idea, benchtop technical...

Organizational innovation and business model innovation: bridges from a systematic literature review

Ricardo Benjamín Perilla Maluche, Luis Antonio Orozco Castro

The purpose of this paper is to create a model that connects drivers between organizational innovation and business model innovation (BMI) to guide empirical research and the...

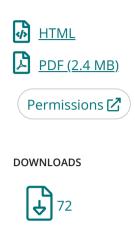

Collaborative smart energy metering system inspired by blockchain technology

Eric Zanghi, Milton Brown Do Coutto Filho, Julio Cesar Stacchini de Souza

The current and modern electrical distribution networks, named smart grids (SGs), use advanced technologies to accomplish all the technical and nontechnical challenges naturally...

Are environmental sustainability thoughts a panacea for environmental performance? Social innovation and moderating role of green innovation

Amira Khattak

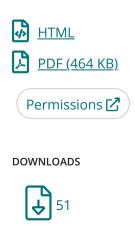

This study aims to explore the association between environmental sustainability thoughts and environmental performance. Mediation through social innovation and moderating role of...

<u>Innovation mentor community of practice: a social network analysis perspective</u>

Gunda Esra Altinisik, Mehmet Nafiz Aydin

To exploit collaboration-driven innovation, in recent years, many government-sponsored innovation programs and mentor services have emerged. These services support an effective...

Environmental pressures and eco-innovation in manufacturing SMEs: the mediating effect of environmental capabilities

Khalid Mady, Muhammad Abi Sofian Abdul Halim, Khatijah Omar, Mohamed Battour, Reda Shaker Abdelkareem

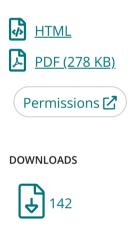

Although environmental pressures have been covered in great detail in prior literature as the drivers of eco-innovation, there remains inconsistency in the empirical results...

<u>Integrating external stakeholders for improvement in green innovation performance: role of green knowledge integration capability and regulatory pressure</u>

Sami Ullah, Tooba Ahmad, Bei Lyu, Abdul Sami, Mohit Kukreti, A. Yvaz

Green innovation, particularly in manufacturing firms, is one of the most advocated methods to curb the effects of climate change. This study aims to investigate the impact of the...

<u>Knowledge sharing enablers, processes, and innovation capability in a telecommunications company in an emerging market economy: a mixed-methods case study approach</u>

Minwir Al-Shammari, Shaikha M. Almulla

This study aims to explore the interaction among individual factors (enjoyment in helping others and knowledge self-efficacy), organizational factors (top management support and...

Exploring the theoretical foundations of innovation ecosystems between 2006 and 2020: an analysis at the different approaches

Aurora Carneiro Zen, Carlos Alberto Frantz dos Santos, <u>Diego Alex Gázaro dos Santos</u>, <u>Juliana Ribeiro da Rosa</u>, <u>Everson dos Santos Spindler</u>

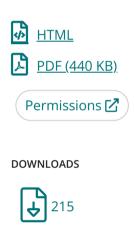

This study aims to map and assess the conceptual development of the innovation ecosystem literature.

<u>Factors affecting social entrepreneurial intentions in a Portuguese higher education institution</u>

José Milton de Sousa-Filho, Fernando Almeida

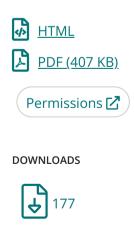

This study aims to identify and explore the factors affecting social entrepreneurial intentions considering an educational institution in Portugal. It also intends to determine...

Orchestrating firm-specific resource integration to achieve customer service performance: an investigation in the hotel context

Gilang Puspita Rini, Amie Kusumawardhani

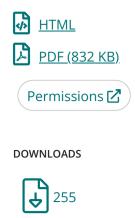

This study aims to identify factors that can improve customer service performance by verifying the relationships between these factors, such as customer orientation, firm-specific...

<u>Untangling the influence of green human capital on green supply chain management practices through environmental education and internal environmental management</u>

Majid Murad, Shuli Zou

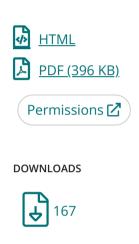

This paper aims to investigate the impact of green human capital (GHC) on green supply chain management (GSCM) practices (environmental education and internal environmental...

Consumer adoption study for innovative technology products and services in an emerging economy

Anshu Sharma, Aradhana Vikas Gandhi

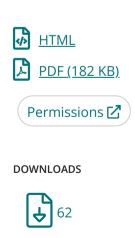

This study aims to explore the adoption behaviour of consumers towards innovative technology products and services (ITPS).

<u>Contributing to sustainable development goals (SDGs) in environmental sustainability through public-private investment in energy: empirical evidence from EAGLE economies</u>

Mosab I. Tabash, Umar Farooq, Suhaib Anagreh, Mamdouh Abdulaziz Saleh Al-Faryan

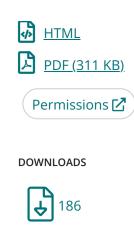

This study aims to explore the empirical relationship between public-private investment (PPI) in energy and environmental quality.

Does human capital mediate the relationship between digital competence and service innovation capability? Evidence from the UAE during covid-19 pandemic

Lama Blaique, Taghreed Abu Salim, Farzana Asad Mir

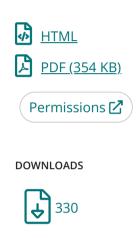

The purpose of this study is to investigate the relationship between digital competence and the capability to innovate in the service sector and examine if this relationship is...

Authentically flown to innovation: authentically triggered innovative work behavior through flow at work with moderating role of creative self-efficacy

Laiba Kafeel, Muhammad Mumtaz Khan, Syed Saad Ahmed

The study aims to explore the mediating role of flow at work and moderating role of creative self-efficacy in the relationship between authentic leadership and innovative work...

<u>Using social media for innovation – market segmentation of family firms</u>

Ramakrishnan Raman, Preetha Menon

The purpose of this study is to understand the strategy adopted by family firms in using social media for their business. Based on the social media usage, this paper attempts to...
