CHAPTER III

RESEARCH METHOD

Research method is a way employed by me to collect and analyze the data in order to solve the problem. In this chapter, I describe design of the study, data and data source, data collection, and data analysis.

3.1 Design of the Study

This study is Qualitative research. Silverman (2004:136) states that "Qualitative research studies include ethnographies, case studies, and typically, descriptive studies. Qualitative research methods typically include interviews, historical and document analyses, and observation". Qualitative research will not give the numeral or statistic but it depends on the knowledge of the researcher about the material in analyzing data because the data are reported in utterances.

3.2 Data and Data Source

In this study, the data is utterance of illocutionary acts and the utterance of the movie script is the data source. I downloaded the data source in http://www.imsdb.com/scripts/Remember-Me.html. This movie scripts is written by William Fetters and Jenny Lumet that revised in April 16th 2009. I analyze the utterances that produce by the main characters in Remember Me movie scripts. They are Robert Pattinson (Tyler) and Emilie de Ravin (Ally).

3.3 Data Collection

The technique of collecting the data applied in this study is by using several types as follow:

1. I watch the Remember Me movie.

2. I download Remember Me movie script by internet in http://www.imsdb.com/scripts/Remember-Me.html

3.4 Data Analysis

After collecting data, I analyze the data. To make easier in reporting the data, I use some ways:

1. Read the Remember Me movie scripts carefully to understand the story and the acts of the main characters.

2. I identify the illocutionary acts and classified into illocution types based on Searle's theory (Assertive, Directive, Declarative, Commisive, Expressive)

Example:

No	Utterance	Types of Illocution	Types of Illocutionary force	Context
1	*Thanks for*	Expressive	Thanking	This utterance is

	organizing everybody.			said by Tyler to Caroline because Caroline could make her family come together in Michael's grave.
2	*She's not here now. She's at the library.*	Assertive	Informing	This utterance is said by Tyler to Craig (Ally's father). Craig was looking for Ally and Tyler gave information to Craig where Ally is.
3	*I need you to call my dad.*	Directive	Asking	This utterance is said by Ally to Tyler. In this situation Ally will not go home, and she asks Tyler to call her Dad.
