ABSTRACT

Indarti, Pena Dewi. 2014. *The Correlation between Vocabulary Mastery and Writing Ability of Descriptive Text (A correlational Study of Eighth Grade Students of SMP N 2 Margorejo Pati in Academic year 2013/2014)*. Skripsi: English Education Department Teacher Training and Education Faculty Muria Kudus University. Advisors: (1) Titis Sulistyowati, SS., M.Pd, (2). Dra. Sri Surachmi, M.Pd.

Key words : correlation, vocabulary, writing, descriptive text.

Writing is one of four basic skill which studied by students. Further, there are many kinds of writing texts that has learnt by students in learning process. One of them is writing descriptive text. There are many factors can influence in good writing, one of them is vocabulary. Its mean if the students want to write the text especially the descriptive text, they should be master much vocabularies.

The objective of study is to find out whether there is any correlation between vocabulary mastery and writing ability of descriptive text the eighth grade students of SMP N 2 Margorejo Pati in the academic year 2013/2014

This is a correlational study. The subject of the research is the eighth grade students of SMP N 2 Margorejo Pati in the academic year 2013/2014 with the number of students 36. The design of this research is correlative that's belong to quantitative research. The instrument used was a test. Type of vocabulary test is multiple choice and writing test is essay test which asking students to make sentences into a paragraph.

The result of the research shows that the mean from the mastery of vocabulary is 61.44, and standard deviation (**SD**) is 9.05. From the data of mean, it can be categorized average. Then, the mean for writing ability of descriptive text is 59.54, and standard deviation (**SD**) is 11.63. From the data of mean, can be categorized low. From the data, 0.648 is gotten for the coefficient r_{xy} . Because of the coefficient r_{xy} is not equal with 0, the null hypothesis (h_0) is rejected and the alternative hypothesis (h_a) is confirmed. Therefore, there is a significant correlation between the mastery of vocabulary and the writing ability of descriptive text of the tenth grade students of SMP N 2 Margorejo Pati in academic year 2013/2014. Because of the r_{xy} is 0.648, it can be categorized high correlation.

Considering the process and the results of this research, the students should master good vocabulary because if they have good vocabulary, they will be great in written text. Then, the teacher if teach the students about write of descriptive text should teach them the vocabulary first. Because both of them have high correlation.

ABSTRAK

Kata kunci : korelasi, kosokata, menulis, teks deskripsi.

Menulis adalah salah satu dari empat kemampuan dasar yang harus dipelajari oleh siswa. Selanjutnya, banyak jenis menulis tes yang dipelajari oleh para siswa didalam proses belajar. Salah satu diantaranya adalah descriptive text. Ada banyak faktor yang mempengaruhi dalam menulis yang baik, salah satunya adalah kosokata. Itu berarti, jika siswa ingin menulis teks terutama deskripsi tes, mereka harus menguasai banyak kosokata.

Tujuan penelitian ini adalah untuk mengetahui adanya hubungan antara penguasaan kosokata dan menulis dalam bentuk tes deskripsi.

Jenis penelitian ini adalah penelitian korelasi. Subjek dari penelitian ini adalah siswa kelas delapan SMP N 2 Margorejo Pati tahun akademik 2013/2014 dengan jumlah siswa 36. Desain penelitian ini adalah penelitian korelasi yang termasuk penelitian kuantitatif. Instrument yang digunakan adalah dalam bentuk tes. Tipe untuk mengetes kosokata adalah pilihan ganda dan tes menulis menggunakan tes esai yang mana meminta siswa untuk membuat kalimat kedalam bentuk paragraf.

Hasil penelitian menunjukkan bahwa nilai rata-rata penguasaan kosokata adalah 61.44, dan standard deviasi (**SD**) adalah 9.05. Dari data tersebut, dapat dikategorikan sedang. Kemudian, nilai rata-rata dari kemampuan menulis dalam bentuk tes deskriptif adalah 59.54, dan standard deviasi (**SD**) adalah 11.63. Dari data tersebut, dapat dikategorikan lemah. Menurut data, 0.648 dapat memperoleh koefisien nilai r_{xy} . Karena koefisien nilai r_{xy} tidak sama dengan 0, hipotesis nol (h_0) telah menolak dan hipotesis alternative (h_a) telah menerima. Oleh karena itu, dapat disimpulkan bahwa ada hubungan antara penguasaan kosokata dan kemampuan menulis dalam bentuk tes deskripsi pada siswa kelas delapan SMP N 2 Margorejo Pati tahun akademik 2013/2014. Karena jumlah r_{xy} adalah 0.648, jadi dapat dikategorikan korelasinya tinggi.

Mengingat proses dan hasil penelitian ini, saya menyarankan bahwa siswa harus menguasai kosokata yang baik karena jika mereka menguasai kosokata, mereka bisa menulis teks dengan baik. Kemudian, guru jika ingin mengajar murid untuk menulis deskriptif teks harus mengajari kosokata terdahulu. Karena keduanya mempunyai korelasi yang tinggi.
