Sebuah proses pentransferan informasi dari bahasa sumber ke dalam bahasa sasaran disebut penerjemahan. Sekarang kita dapat menemukan banyak produk dari terjemahan. Contohnya novel, surat kabar, buku teks universitas, komik, film dan lain sebagainya. Dan teks tersebut diterjemahkan dari bahasa sumber ke dalam bahasa sasaran. Terjemahan dari dialog dari film atau program TV berbahasa asing yang biasanya ditampilkan di bagian bawah layar disebut subtitle.

Tujuan dari penelitian ini adalah untuk mengidentifikasi jenis kesetaraan terjemahan yang dibuat pada terjemahan subtitle bahasa Indonesia dari film *The Croods* dan juga untuk mengetahui strategi yang digunakan oleh penerjemah untuk mengatasi non TL kesetaraan kata dalam terjemahan subtitle bahasa Indonesia dari film *The Croods*.

Penulis menggunakan metode penelitian deskriptif dalam penelitian ini untuk memperoleh tujuan penelitian. Data penelitian ini adalah ungkapan dalam subtitle bahasa Indonesia dari film *The Croods*. Sumber data dari penelitian ini adalah DVD original film *The Croods*. Untuk mendapatkan subtitle bahasa inggris dan indonesia, penulis menonton filmnya dan kemudian menulis subtitle bahasa Indonesia dan bahasa inggris dari film.

Berdasarkan analisis data yang telah dibandingkan dengan yang lain, jenis yang paling umum dari kesetaraan terjemahan adalah tingkat kata. Ini terjadi ketika penerjemah tidak dapat menggunakan kata yang cocok dalam menerjemahkan bahasa target. Ada tingkat frasa setelah tingkat kata yang terjadi ketika penerjemah memiliki kekurangan pemahaman dalam idiom atau kalimat. Jenis terakhir adalah tingkat tata bahasa yan terjadi ketika penerjemah memiliki kekurangan dalam memahami bdang ketata-bahasaan. Selanjutnya adalah tentang strategi yan digunakan oleh penerjemah. Strategi penerjemahan dengan kata yang lebih umum , terjemahan oleh kata yang lebih netral, terjemahan oleh pemindahan budaya, terjemahan menggunakan kata serapan, terjemahan menggunakan kata yang berhubungan, terjemahan menggunakan kata yang tidak terkait, terjemahan dengan pengurangan.

Dari analisis itu, penulis menyarankan bahwa penerjemah harus lebih memperhatikan aspek kewajaran, kejelasan dan akurasi ditingkat kata, frasa dan tata bahasa. Dan penerjemah subtitle terutama disarankan agar mereka lebih berhati-hati dalam menerjemahkan jenis kesetaraan terjemahan, sehingga pembaca akan mendapatkan pesan yang mendalam dan informasi yang benar.

ABSTRACT

Kurniawan, Andi. 2015. *The Analysis of Translation Equivalence in Indonesian Subtitle of The Croods movie*. Skripsi, English Education Department Teacher Training and Education Faculty Muria Kudus University. Advisor: (1) Rismiyanto, S.S.M.Pd (2) Fajar Kartika, S.S, M.Hum.

A process of transferring information from source language into a target language is called translation. Now, we can find many products of translation. They are novel, newspapers, text book of university, journal, comic, movie and etc. And they are translated from source language into another language or target language. Translation of foreign dialogue of a movie or TV program which is displayed at the bottom of the screen, it is called the subtitle.

The objectives of the study are to identify the types of translation equivalences made on the translation of indonesian subtitle of *The Croods* movie and also to find out the strategies used by the translator to tackle non-TL equivalence words in the translation of the indonesian subtitle of *The Croods* movie.

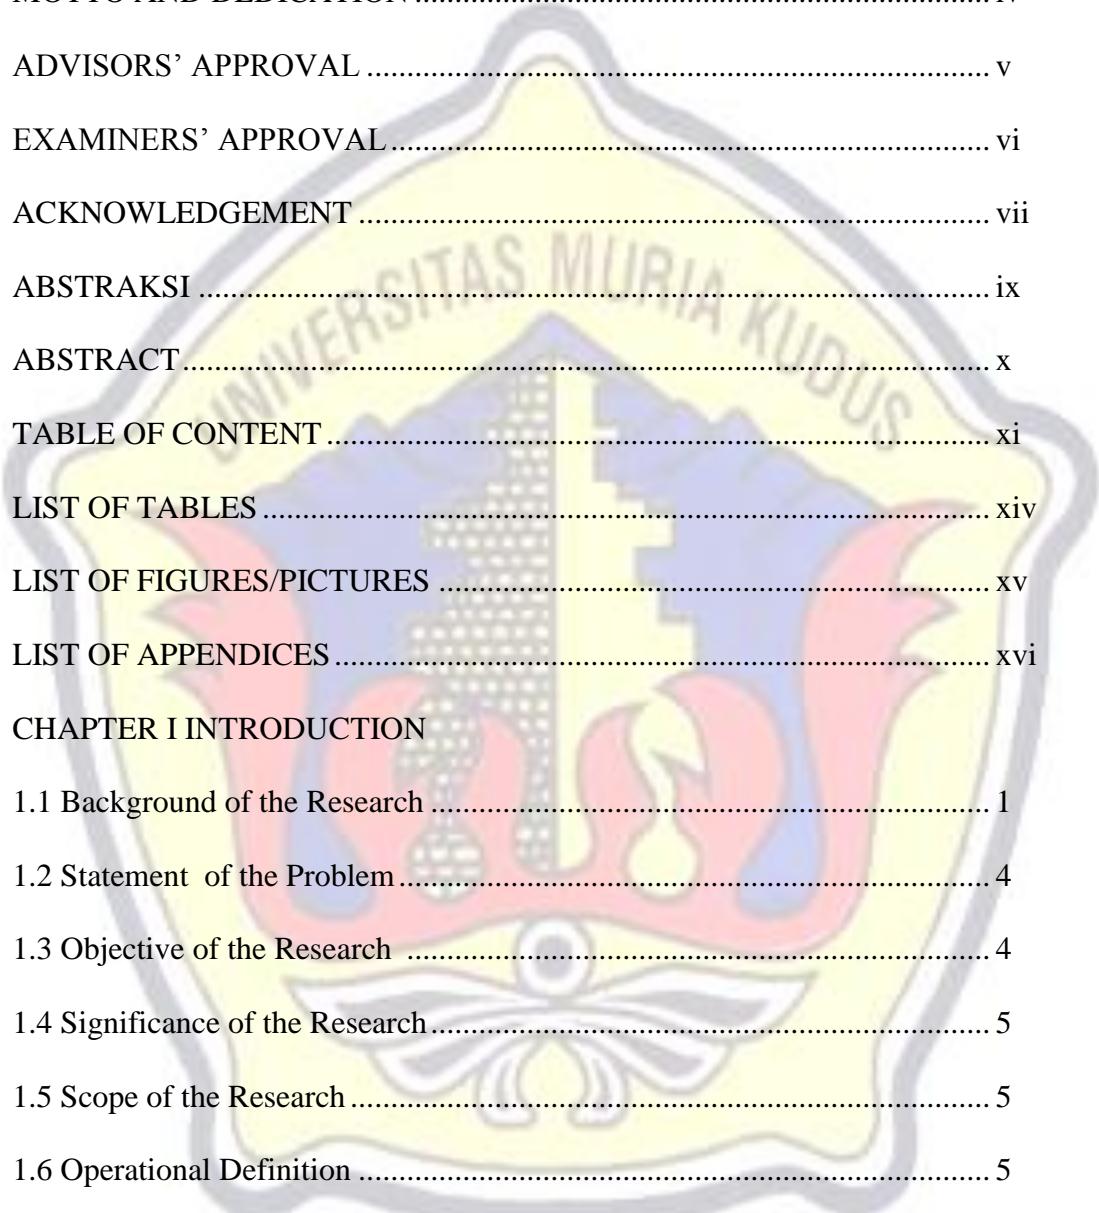

The writer used the descriptive research method in this study to acquire the objective of the study. The data of this research are the utterance of subtitle in Indonesian of *The Croods* movie. The data source of this research is the original DVD of *The Croods* movie. In order to obtain both English and indonesian subtitle, the writer watched The movie and then wrote both dialogue English-Indonesian subtitle.

Based on the analysis of the data compared with the others, the most common types of translation equivalence are the word level. It occurs when the translator cannot use the suitable word in translating the target language. But, the translator is quite understand about the the word level. There is phrase level or above word level after word level which occur when the translator has lack of understanding in idiom or sentence. The last types is grammatical level, it is occur when the translator has lack of the grammatical field. Next, is about the strategies that is used by the translator to tackle non-TL equivalence word. They are translation by more general word , translation by a more neutral, translation by cultural substitution, translation using loan word, translation by paraphrase using unrelated word, translation using related word, and the last is translation by omission.

From the analysis, the writer suggest that the translator must pay more attention to naturalness, clarity and accuracy aspect at word level, phrase level and grammatical level. And the translator of the subtitle especially are suggested that they can be more careful in translating, so the reader will get a good and meaningfull message and information.
