Newspaper is one of the mass media used to convey communication through writing. The Jakarta post is one of the local newspapers that provides all news in English. The news absolutely provides the headlines in each contain. The headlines are usually structured in a sentence or a phrase. A story will already be know by simply reading the headline. It is often the first thing the readers come across in newspaper. The better structure of headlines can make the readers easy to get message of news therefore syntax is really needed in structuring them.

The theory that used to analyse the research is by Radford's (1988) namely X-Bar Theory. It uses a tree diagram as a representative of the theory.

D+A+N, Verb phrase: V+NP and V+PP, and Prepositional phrase: P+NP and P+N. (5) The structures of English phrase used in news headlines of the Jakarta post in World column are, Noun phrase: A+N, A+A+N, A+A+A+N, D+N and D+A+N, Verb phrase: V+NP and V+PP, and Prepositional phrase: P+NP and P+N. (6) There are two similarities and one similarity of structures of English phrase in Business and World column. Furthermore, the difference one is the structures of Noun phrase in Business column are more than in World column.

Finally, the writer suggests that syntax especially in structuring phrase is necessary to study in order to know well how to structure a good phrase in any variations and to know well how a sentence is structured from a phrase to a clause then to a sentence.
